# Free Advertising Methods

Admittedly, I have an interesting common question for you: how do you start promoting your web business from the very beginning? It is not a secret that it is not enough to possess just own website and the product on its own will make you money. The thing you really need is the rapid never-ending traffic from your visitors who purchase something from you. Actually, there is a certain formula that it is obligatory to follow and to become assured that this approach is possible. Interestingly, there are numerous methods of promoting yourself through the means of Internet these days and I am going to share with you the main points that can be easily utilized with this intention. Although I have been speaking a lot about the importance of the social networking sites, today I want to concentrate on the completely different issues. Remarkably, there is a couple of new approaches for the free advertising that, in fact, is used only by the half the online entrepreneurs for getting considerable income:

1) Writing advertisements or composing the whole advertising campaigns for your Online Business.

Actually, this is one of the fascinating ways to make your site or blog differ and be special in comparison with the big rest. If you used to writing one or at least three advertisements a day on at two or three websites, your online business has all chances to go away from the great scene without even being noticed by the customers, the number of whom each day equals 20. I am sure that now you are disagreed with me, but all you must do here is to fulfill your work consistently and at the very end your results will be obvious not only for you, but for your competitors. In fact, all these ads are free of charge and that is why it is the bright and perfect opportunity to begin your web business at the very top of what we call "guru game". In order to make your life of searching much easier, I can mention few useful websites for putting your ads there: Friday ads and InetGiant, Uk Classified ads, Freeads, etc.

2) Using business community websites for make contacts and ads

At this stage I can reveal you the biggest secret of the prosperous business: to build yourself a name and to become well-known in this sphere as the flourishing business owner, you should become the friend for your competitors. Do not forget that all those thousands of contracts they have signed during their experience can become a real profit for you. Besides, the positive side of this approach is that you can easily share your views and the main tips with them, as soon as you get the trust of these people. Amazingly, with such websites as LinkedIn and Ecademy you can make many friends during the one day only.
