Affiliate marketing is the easiest and fastest way to earn money from scratch online.

Many courses will suggest you make a product of your own, to sell to others on the internet. That's fine if you know how to do that.

You would have to write the product, or have the product written.

You need product images, banners and other marketing materials. Then you would have to organise a way to take payments. Any returns from your customers would have to be taken care of too.

If you want to make a quick start there is a far better way and it's called Affiliate Marketing. No products to write, design or stock. Affiliate programs will pay you when someone buys a product through your link. That link can be on your site, in an ad, in an email you send and many other ways.

My free online marketing training and mentoring program . . . the fastest, most profitable way to learn Affiliate marketing. Written by Super Affiliates for people who are new to the world of Internet marketing, you're taken by the hand and shown what to do and how to do it.

Don't know what a Super Affiliate is? Don't worry. You've got time to learn before you become one. They are people who make a living from affiliate marketing . . . a very GOOD living.
