How to Win the Lottery
br /

Gambling Games like a href=http://www.hoobitz.com target=_blanklottery/a there was one surefire strategy that won the lottery every time, the lottery would simply not be in business. We would all be winners. However, there are some strategies which can improve your chances of filling out tickets that win more consistently.
br /

Strategy #1 – Play lotteries with lower jackpots and that have less players.
br /

Winning the lottery increases your chances of winning the jackpot. Usually the higher the jackpot, the less likely it is you will win as you have more competition for the winning number.
br /

Strategy #2 - Never buy a Quick Pick ticket.
br /

Studies in various countries have shown that lottery tickets that you manually pick out yourself have a much greater chance of winning than the ones where you let the computers do the picking for you.
br /

Strategy #3 – Play tickets that award additional money or prizes if a sequence of numbers is played, such as two pairs in a row.
br /

Strategy #4 – If you are playing a lottery which requires that numbers be won in a particular sequence, you should always remember to “box” your selection meaning that the numbers that can win can be picked in any order.
br /

Strategy #5 – Play lotteries that offer bonus wins for an extra number.
br /

Examples of these are Mega a href=http://www.hoobitz.com target=_blankMillions/a and Power Ball in the United States, along with Encore in the Lotto 649 in Canada.
br /

Strategy #6 – Play the most tickets that you can, as this increases the odds that you will be holding a winning ticket.
br /

Strategy #7 – Pool your money for playing the lottery with several other people.
br /

An example would be the “office lottery pool”. This allows you to buy a lot more tickets than you normally would be able to on your own. Studies have shown that there really is power in numbers. The odds favor individuals who have joined a pool as winners rather than those who play solo tickets on their own.
br /

Strategy #8 – Try a wheeling system.
br /

Wheeling is a way for you to get maximum coverage of the numbers you play. Usually you can buy these systems in the form of online or printed charts. Quite simply, wheeling simply helps you span a greater number of numbers each time you play increasing your odds of winning. This maximizes your payoffs when playing the wheeled numbers on multiple tickets.
br /

Wheeling is in essence once way of actually reducing the lottery corporation’s odds against you, as it allows you to play more than the standard set of numbers in one group. There are many different types of charts and wheeling systems available for sale on the Internet including ones developed for six, seven and ten number games.
br /

Here is an example of wheel using 33 tickets that could be used to play a 6 number game.
br /

Pick a group of nine numbers. Your win guarantee is 5 to 6 hits out of nine. This means that if you have 5 numbers out of the pool of 9 numbers at least one ticket will have 5 numbers.
br /

Fill out your play tickets in the sequence shown for all 33 tickets. This will bring you the 33 tickets Win guarantee of 5/6 in 9.
br /

br /

This means that if you have 5 numbers out of the pool of 9 numbers, at least on ticket will have 5 numbers.br /
