# How To Pick A Domain Name For Your Home Based Business Income

It is important to have a good domain name if you are building a new website and starting to build a work at home internet business. If shown an unattractive domain name, the guest will not feel like visiting the website at all. Finding a appropriate domain name that suits your purpose is child's play if you know how to do it. What could be the secret to finding a good domain name? The key lies in getting a good keyword. Make your keyword sound compelling and make it oriented for the search engines too. Read this article to understand how both these can be achieved.br /

br /

Your first objective is to find a search engine optimized keyword home based business residual income that you can use in your domain name. A keyword analyzer is the tool that can help you do this. You will be able to find such tools by searching on popular Internet engines. Think of some keyword that summarizes your website in short and enter it into this tool. You will get lots of options from the analyzer for the keyword you have used. From the returned options pick particular domain name that better serves the meaning of your website. A rule of search engine optimization is to use low competition keywords because they increase your chances of getting found.br /

br /

At this point, you can start searching for your actual domain name. You can find out from the domain name service itself if a particular name is obtainable. In case the domain name you put in is not available for use, you will be given some other alternatives. The most ideal way to benefit from this tool is to enter your chosen keyword first. If at all the keyword is not available for use as the domain name, you will be given other suggestions. Domain names that have the keyword and a . If you do not find this, put some creative thought into it.br /

br /

By putting in filler words in the domain name, you may be able to find an available option that still keeps your keyword. Three interesting fillers you can use are a, an and the. Hence, your domain name will get indexed and will also sound interesting. Also mull over using numbers such as 77 at the end of the phrase.br /

The following are some tricks to perform if you get everything besides .com. These tips can help your a href=http://www.richfromtoday.com target=\_blankhome based business residual income/a rank better and receive more organic traffic. If your keyword is really popular, another extension can be considered. The extensions that may get popular are .net, .org and .biz. You may use an extension that is specific for the nation or the state if it doesn't make any difference to you whether your website is internationally or locally operated. If you are number 1 on Google in Brazil, it is much better business-wise than if you are number 100 on Google in America.br /
