Information About Ways To Make Money

WHAT IS SUPER AFFILIATE SYSTEMbr /

br /

Hello,br /

br /

Now I will explain how super affiliate system works and how it differs from the other internet money making systems. Super Affiliate program is the only one who pays money for free sign-up. Yes it is TRUE! It is the only marketing system which pays money for a real email address. All other affiliate programs pay money to you if they sell something or you make a member for them which generally it is not free membership. Although, super affiliate system pay money even for free sign-ups. To cover this cost the system uses those emails for internet marketing and make profit from them; for instance the system uses member information for internet advertisements to make money and it pays your money from this pool. (you get 2 dollar for each confirmed email :)br /

br /

The system makes payment every 30th of each month. You can get your money by cheque or paypal. I prefer paypal since it is speedy, but it is up to you. If you do not believe this you can watch the payments made over paypal system after clicking now join free button from my website. In the next screen on the right corner you will see view commission payments video link. You will see it is REAL.br /

br /

HOW DOES SUPER AFFILIATE WORKbr /

br /

First, you register to the system with your name and email address by clicking on now join free button very below. Be careful for email address since it should be a valid address to be verified since the system will send you a confirmation email to verify your information. Please do not use yahoo email since the system does not accept it. This mail can go into SPAM or JUNK emails in such accounts hotmail, gmail etc. For this reason please search for this email to confirm it in junk and spam mails if you cant find it. After your confirmation the system will accept that you have a valid email address.br /

br /

Next step, it will send professional website templates to you to help on succeeding this system. You can choose any of them from those packages and edit inside of the material like me and start making money. It will also send an affiliate ID link for you. By this link, all free members will be assigned under you if they register with the system and you earn 2 usd commission for each member you send. The only thing you should do is after sign up to the system, change the content/spin for making traffic to your website even free google and yahoo advertising coupons will be sent to you and it makes your starting very easy.(so you do not need to spend much for this advertising)br /

br /

HOW MUCH MONEY I CAN EARN?br /

br /

It totally depends on your work and your understanding about the system. Yes, the system gives you ready to go webpage templates and all tools to advertise on the net but you also have to work and get traffic to your website and try to explain and convince people who came to your page. After getting some money you can put them on your web and give them your experience to satisfy them. (in every job on the world sincere is important). You can be sure that I tried a lot of programs on the net some worked some of them did not work but this is the perfect system which works very well. Why? Since conversion rate is about 75%. It means every 75 of 100 visitors to your site goes to sign-up and register. That means 75X2 Dollar= 150 Dolar goes to you :). In other programs this rate is about 1% or 0.1%. There are lots of people who is using this system and some of them earning 15000 dolar in each month. All earnings are real in view commission payments video part. Even me, after registering to the system waiting 48 hours to be active, started google adwords and saw that I got 24 click in 12 hours with very small amount of budget (I spend 1 dollar for each day).br /

br /

I went to my account page and looked conversion was 2 person (meaning 4 dollar I made :) even with copy site not this site I prepared). Then I worked on it and prepared this website with the system tools since I realized by making this I can share my experiences and feelings about the system and make more people has extra income with this system and I can also earn more. In short this system is very very good and conversion rate is true.br /

br /

In my opinion do not wait too much and at least sign-up to see what will happen and what instructions and tools will be sent to you. For details you can check my Turkish and English webpage.br /
