Make More Commissions With Secret Affiliate Code 2 - Launch Of Secret Affiliate Code 2

Secret Affiliate Code 2 will be launched on October 21, 2008 and I am looking forward to it with anticipation. Do you want to know why? Well, I was able to purchase the Secret Affiliate Code first edition and if this new one is anything like it or better, I can't wait to see it.

You see, it was because of Secret Affiliate Code first edition, that I was able to participate in some big product launch and make thousands of dollars. It even complimented some of the same methods that I had just discovered myself, but did not know how to implement. It was more detailed and gave step by step instructions on how to get to the front page of Google and compete with this internet marketing gurus who were raking in the big bucks on launch day.

I was able to learn more about Craig Beckta and realized that he was an ordinary guy like I was. I had to actually print the 158 page guide that had so much information, it took me a week to go through it extensively and utilize some of the tactics that really, really worked. Take a look at [How do we know if Secret Affiliate Code 2 is a scam or not?](#) to see for yourself.

Most of the time when someone has a product launch, they will try to get some of the well-known gurus on board because these gurus have a big opt-in list. I had no list. I had to rely on the Secret Affiliate Code's instructions to guide me to compete with these massive list. I learned that you can make money without a list even though a subscriber list is more important.

I also figured out how to grow my list little by little and how to use the free resources online and let them work for me. I was no longer intimidated by these big internet marketers because I had an amazing ammunition called the Secret Affiliate Code.

I knew that Secret Affiliate Code 2 would be dynamite so I emailed Craig Beckta and told him what I thought about his first edition and told him that I really felt comfortable marketing this new product launch since I already knew that he would give something similar or better.

When I got a copy of the Secret Affiliate Code 2, I was certainly blown away. Not only was it good, but it was better.

What I preferred about this new product was that it had a 121 page ebook and mini guides that accompanied the ebook. When you read the main ebook guide, and you get stuck on anything, you would go to the guide and refer to it because it explained each item in the main guide within the accompanying mini guides. So the guide is similar to a text book that you would buy in college with an accompanying solution book that would give you the answers. I loved that about the Secret Affiliate Code 2. The mini guide was like a professor expounding on the facts that you would find challenging.

This would definitely be one of the best methods of learning for any newbie or anyone who wants to really make a living with Internet marketing.

In addition, that is not even all. Craig Beckta has certainly over delivered this time. He has included videos to make it a thrilling learning experience. Video marketing has been one of the most popular means of promotion online these days because people want to see exactly how something is done than trying to figure it out all by themselves. If you are like me, then that is true also for you. I like visual interaction and that is what Craig Beckta does. He takes the material in the guides and puts them in a video presentation to open up your understanding even more.

I am not allowed to reveal what is in the videos, but one thing I can tell you is that it shows you how to make more money as an affiliate marketer even in this bad economy.

After saying all that, I have one negative component of the Secret Affiliate Code 2 that you should know about. I am not going to short change you because I would not want anyone to do that to me. Craig may not like me telling you this, but not everyone who buys the Secret Affiliate Code 2 will make a substantial amount of money because some of the tactics are advanced and will take time to see results.
