# Secure Internet Income - Review

I have just finished going through "SECURE INTERNET INCOME" by Chris Derenberger and it is just what the doctor ordered for a lot of Internet marketing newcomers along with those who have been struggling with the whole thing of internet business but not getting the results they want.

Yet.

So let me tell you what's in this 52 page PDF report.

#### LET'S START WITH THE CHAPTER TITLES

Lesson 1 = Finding a niche

Lesson 2 = Finding products

Lesson 3 = Keyword research

Lesson 4 = Analyzing competition

Lesson 5 = Optimizing your site

Lesson 6 = Getting traffic.

#### THE SUBTITLE OF "SECURE INTERNET INCOME" IS...

"Earn \$5,000+ every month promoting other people's products."

So this is about affiliate marketing where you promote products that others have produced, using websites that they have prepared, and you get paid a commission on every sale generated by your efforts.

Says Chris, "The system in this book will work 100% of the time, but requires work, effort and patience."

#### WHAT I PARTICULARLY LIKE ABOUT "SECURE INTERNET INCOME"

1. You do not need to have a mailing list to make money.
2. You do not need your own products.
3. You do not need to learn how to use Pay Per Click.
4. Chris takes you to his MOST RECENT website and he explains that he only updates it about once a month yet he earns commissions every day from the products he promotes on that site.

It is great being able to learn by SEEING what a successful site looks like. Then he goes much further by dissecting what he has done and why. And how. Plus he shares what he looks for in choosing products to promote, along with the 6 affiliate directories he goes to when he is searching for quality affiliate products.

#### WHO THIS MANUAL CAN HELP (AND WHO SHOULD NOT BUY IT)

This is designed for those who have been thrashing around trying to generate an online income for a while with no success. Beginners will also find it an helpful guide though you will need to know how to set up a basic web page.

The appeal of this ebook is that Chris keeps things SIMPLE. He tells what is working for him -- to the tune of thousands of dollars a month in affiliate marketing income.

If you are earning the big bucks from your article marketing efforts, you don't need Secure Internet Income. On the

other hand, you might learn a few of his tricks. I am always delighted to learn another money making strategy, aren't you?

#### DESIGNED FOR LONG TERM INCOME

Let's finish with a quote from the last page of the report:

"That's all there is to it. Once you finish your first website, start another. One or two websites can easily earn you over \$3,000 month in a short amount of time if you follow this outline. The secret is not to give up or get distracted trying new things. Keep focused and be patient.

This system is designed for long term income."
