# Uncover The Secret Of Finding The Cheap Web Hosting

Most of time we need a low-priced web hosting especially we don't want to commit the yearly hosting plan. Quite often, we will look for free hosting services but we are hesitate to the restrictions of the [top ten web hosting](#).

As we know, hosting bandwidth is getting cheaper and cheaper due to technological advancement, which is the same as web hosting fee. In the old times, many small business owners are reluctant to put their business online since they think they could not afford the big amount of hosting fee that those big companies are paying. However, most corporations nowadays are using cheap web hosting providers with a very reasonable budget.

One critical method to get cheap web hosting is through [web hosting compare](#). There could not be any cheaper than a free service which you could get. It is very beneficial for most new business starters if cost is really a issue. The major drawback for free hosting services is that most of them come with advertisements. Besides, the free web host could suddenly closed down your account if your sites are growing popular with many visitors, and used up a lot of bandwidth.

There are few options you may consider if you want to get a [best website host](#) but at the same time want to get away from the drawback of a free web hosting,

One of them is the Pay as you go plan. There is no need for you to pay a monthly fee, but you have to put money on your account. Every time when someone accesses your site, your account will be debited for a small charge. In other words, you are just paying what you are using. This kind of service plan has not been getting popular yet, but it is becoming more available at more and more web hosting provider.

The second way is to get a top ten web hosting which doesn't require you to make a long term commitment. You could enjoy the low and affordable monthly plan and all the benefits for a certain period of time. As long as you find another one which is much cheaper than your existing web hosting provider, you may consider switching to the cheaper services. Besides, many web hosting providers offer free websites transfer to new accounts so you don't need to worry about the transfer of your websites on your existing account.

Nowadays, you could get a cheap web hosting service for \$5 or less a month which offers you more than sufficient disk space and bandwidth for a successful online business. However, you should be cautious that you should not be oversold by the web hosting companies. Most of the business doesn't need huge amount of disk space or bandwidth so you should remember not to pay for excessive amount. The best way is to find a best free website hosting which allow you to upgrade your plan for extra disk space or bandwidth as you go.

Cheapest is not always best. The temptation to control your monthly budget is a strong one and there are many very cheap deals on offer. Whilst these should not be dismissed out of hand, for business users they should be studied very carefully. Good quality hosting is not expensive, but neither is it available for pennies a month. You will find, as with most things, that the universal rule, 'you get what you pay for', applies to hosting too. cheap hosting website is still available at very reasonable prices - being cheap may cost you dear.
